Uniform Policy/Personal Hygiene

Customers frequently judge a restaurant by observing the appearance and behaviors of the employees serving them. By following the uniform policy and personal hygiene guidelines, we can promote a strong brand image while minimizing the risk of foodborne illness.

Uniform: Any person functioning as an employee must wear the complete approved uniform at all times when working. The uniform consists of Uniform Shirt, Apron, Pants/Shorts/Skirt, Headcovering, Shoes, and Name Tag. All Components of the uniform must always look professional, clean, and free from fading, holes, and stains. It may not be modified in any way.

Cleanliness: Employees must bathe daily and have clean hair, skin, hands, teeth, and clothes. Hair must be clean, neatly combed, short (not touching the collar), or restrained. Mustaches and beards, if allowed by local regulations, must be short and neatly trimmed.

Fingernails: Employees must keep their fingernails clean and trimmed, filed and maintained so the edges and surfaces are cleanable. Nail polish/paint and artificial nails are allowed provided that they are kept clean and in good condition. No additional nail ornamentation is allowed.

Jewelry:

- One plain ring and one non-dangling bracelet or wristwatch may be worn.
- Plain necklaces, if worn, must be worn inside the uniform.
- Piercings: Non-dangling jewelry or gauges may be worn in the ears and one small, non-dangling facial piercing is allowed. Bandages cannot be placed over jewelry.
- Only approved promotional buttons and professionally-made name tags may be worn. These must be worn on the uniform shirt or hat.
- Excessive make-up and heavy perfume may not be worn.

Cleaning Procedures: Employees must wash their hands with soap and water and dry them thoroughly before starting work, and repeatedly throughout the day. They need to vigorously rub together the surfaces of their lathered hands and arms for at least 20 seconds and thoroughly rinse with clean running water. Employees must pay particular attention to the areas underneath the fingernails and between the fingers. After washing hands, dry using single-service towels.

Employees must also wash their hands after the following activities (this list includes but is not limited to):

1. Before returning from the restroom
2. Before putting on gloves
3. After cleaning assignments such as sweeping and mopping
4. After coming in contact with any cleaning product and/or chemical
5. After handling money or any other non-food item
6. After touching hair, face, skin or clothes
7. After coughing, sneezing, using a handkerchief or disposable tissue
8. After using tobacco, eating or drinking
9. Before and after treating a cut or wound
10. After handling garbage
11. In between preparing different food products

Smoking: Employees must not smoke or use tobacco in any form while working in the food storage and preparation areas or in areas where utensils are cleaned or stored.

Illness: Employees must report all illnesses to the manager of the restaurant before working with food. If employees become ill or injured while working, they must report their condition to the manager or supervisor immediately. If an employee's condition could possibly contaminate food or equipment, he/she must stop working and see a doctor. If an employee must take medication while working, the medicine must be stored with their personal belongings away from areas where food is prepared, served and stored.

Management must excuse an employee from working when diagnosed with a foodborne illness, or if they have one of the following symptoms (this list includes but is not limited to): Fever, Diarrhea, Vomiting, Sore Throat, and Jaundice (yellow skin and eyes). Please check with your local Health Department or regulatory agency for a complete list of symptoms.

Employees can contaminate food at every step in its flow through the restaurant. Good personal hygiene is a critical protective measure against contamination and foodborne illness.
